

SP PARFUMS SVEN PRITZKOLEIT

Home is, where the perfume is. That déjà-vue's our childhood's scents and memories and the deepest parts of our dreams, instincts and soul – I hope, we will find that perfume ...

Since my early childhood years I am obsessed by the senses of taste and smell. First because of my grandmother's cooking and gardening. And later by my mother wearing "Magie Noire" by Lancome. Everytime I was interested in any kind of art – music, theatre, painting ... At least I studied pharmacy and become a pharmacist in the family owned apothecary. During the last 20 years I studied perfumery by myself, impressed by the combination of traditional and modern-experimental perfumery I did my first real perfume composition named "Pink Patchouli" in 2006.

The following years, looking for my own signature, I created the ESSENTIAL COLLECTION.

Each of the 10 Essential SP Parfums is composed and manufactured by myself with high quality raw materials, bottled in an elegant 30ml sprayer with the label in "old apothecary" style, also the package design, remembering herbal tea boxes, is related to my profession as a pharmacist and the "good old times" too.
